RODRIGO REY

FULL-STACK DEVELOPER

PROFILE

I am a Systems Engineering student passionate about technology and problem-solving. My education has provided me with solid technical skills, but I am also an effective communicator and work well in teams. My goal is to collaborate on projects that have a positive impact on society, and I am willing to do what it takes to achieve the company's goals. In my free time, I enjoy learning and putting my skills into practice. I am motivated and ready to apply my knowledge in the field of technology and problem-solving.
